

Spring Field Science in the Elwha River Valley

A Weekend Teacher's Workshop

Explore, Inquire, and Follow Your Natural Wonder to the Elwha!

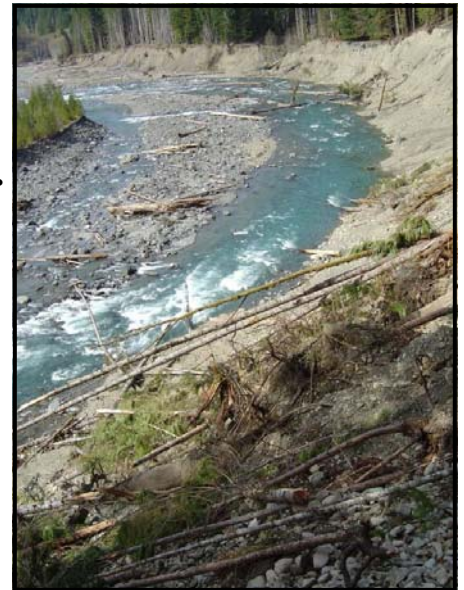

DISCOVER successful inquiry-based learning methods from experts.

PRACTICE using innovative student-centered techniques with your colleagues in and around the Elwha river dams.

INVESTIGATE spring conditions in the area soon to become the largest dam removal in human history.

ENHANCE your understanding of the powerful learning opportunities in the Elwha and how to link this project to your classroom.

Join Olympic Park Institute for a hands-on and minds-on experience in the Elwha River Valley. Be one of the first to hear about the latest results and research coming out of this historic dam removal effort. Learn how to inspire students while also meeting key GLE and WASL challenges.

Location and Accommodations

OPI is situated on the shore of Lake Crescent within Olympic National Park just three hours from Seattle and twenty miles west of Port Angeles on Highway 101.

Your cozy cabin is a short walk from the lake. Hearty meals are served in the historic Rosemary Inn. Our staff accommodate vegetarian and other special dietary needs.

Olympic Park Institute is a campus of Yosemite National Institutes, a leader in environmental education for over 30 years.
